03 Extension Guide

Extension Guide — L_ROS2CORE

Company: Anticloud FZ LLE

Adding New Features

1. Fork the upstream codebase
2. Add integration hooks in anticloud/ module
3. Ensure PAX inference path is tested offline
4. Add AIOSS audit entries for all mutations
5. Submit PR with AIOSS proof-of-integrity

API Extension

All public APIs wrapped with AIOSS decorators.
New endpoints must declare @aioss_audit to be accepted.
